

**CONTENTS
PART ONE**

I.I.FABRIKANT	11
Theoretical studies of dissociative attachment: from gas phase to condensed phase	
A.P.KALININ	15
Study of elastic and inelastic atoms and molecules interaction by small angle fast molecular beam method	
G.BRESSI, G.CARUGNO, E.CONTI, C.DEL NOCE, D.IANNUZZI, A.F.BORGHESANI	21
Infrared emission induced by electrons moving in noble gases and liquids	
CZ.SZMYTKOWSKI, P.MOŻEJKO	28
Recent progress in absolute total cross section measurements for electron scattering from molecular targets at low and intermediate energy range	
M.ZUBEK	33
Elastic and inelastic electron scattering by atoms and molecules in the backward direction	
D.B.GOYER, I.G.MEGELA, A.V.GOMONNAI, YU.M.AZHNIUK	38
Investigation of formation and annealing of radiation defects in III-V semiconductors under electron irradiation	
N.J.MASON, N.C.JONES, L.KAMINSKI, P.TEGEDER, P.KENDALL	44
Experimental studies of transient molecules by electron impact	
I.I.FABRIKANT	51
Theory of electron-molecule collisions in the sub-meV range	
V.T.MASLYUK, O.O.PARLAG, O.I.LENDEL, T.I.MARINETS, V.V.BONDARENKO	55
The effect of elementary particles emission at the heavy nuclei fission fragments mass distribution	
N.J.MASON, N.C.JONES, L.KAMINSKI, P.TEGEDER, P.KENDALL	60
Molecular spectroscopy probed by synchrotron radiation and electron scattering	
B.V.ROBOUCH, A.KISIEL	67
Ternary elemental zinc blende tetrahedra size, shapes, preferences as deduced from EXAFS observations	
A.I.BERCHA, R.BOGDAN, K.GLUKHOV	75
Energy states and type of $(\text{GaAs})_n/(\text{AlAs})_m$ short-period superlattices	
J.CEBULSKI, J.POLIT, E.M.SHEREGII	80
Magnetophonon Spectroscopy of $\text{Zn}_x\text{Cd}_y\text{Hg}_{1-x-y}\text{Te}$	
YU.A.BANDURIN	85
Continuum radiation during ion bombardment of metals	
V.LENGYEL, YU.FEKETE, I.HAYSAK	89
Spin Effects in Quarkonia	

A.V.SNEGURSKY	93
Threshold peculiarities of electron-impact dissociative ionization of polyatomic molecules: pyridine	
M.M.KAPUSTEY, I.V.KHIMICH, R.M.PLEKAN, V.YU.POJDA	98
The adiabatic three-particle shell model of nucleus	
V.A.KELMAN, A.S.RYBAK, YU.O.SHPENIK, YU.V.ZHMENYAK	104
Discharge in indium iodide vapor for laser on In 451.1 nm self-terminating transition	
P.MOŽEJKO, B. ŽYWICKA-MOŽEJKO, CZ.SZMYTKOWSKI	108
Elastic cross section calculations for electron scattering on polyatomic molecular targets: XY_4 ($X = C, Si, Ge; Y = H, F, Cl$), XF_6 ($X = S, W, U$), C_2F_6 and C_6Y_6 ($Y = H, F$)	
R.OLSZEWSKI, M.ZUBEK	112
Electron impact excitation of nitric oxide	
P.P.PUGA, B.M.HUNDA	115
Thermally stimulated luminescence and X-ray luminescence in undoped $Li_2B_4O_7$ single crystals	
A.I.IMRE	120
Study of direct and resonance processes in collisions of electrons with atoms and ions	
I. I.SHAFRANYOSH, V. I.MARUSHKA	125
Measurement of cross section of superelastic electron scattering from magnesium	
B.MIELEWSKA, M.ZUBEK, G.C.KING	129
Absolute differential cross sections for electron scattering in nitrogen in the angular range from 120° to 180°	
G.TOMAKA, E.M.SHEREGII, J.CEBULSKI, W.SCIUK, W.STRUPIŃSKI, L.DOBRZAŃSKI	132
Controlling of the thermal stress in the multiple quantum wells using magnetophonon spectroscopy	
V. MOROZ, V. MATOLIN, K. MAŠEK	138
RHEED and EELS investigation of Pd/Al bimetallic system	
G.G.BOGACHEV	142
On the configuration mixing effects in the excitation of ZnII and CdII lines at electron-atom collisions	
A.A.BOROVIK, V.N.KRASILINEC, O.I.ZATSARINNY	145
Total electron excitation cross sections for low-energy autoionizing states in lithium	
I.V.CHERNYSHOVA, J.E.KONTROS, O.B.SHPENIK, L.SZÓTÉR	149
Cross sections for slow electron scattering by cadmium atoms	
M.I.DUDICH, V.V.SURAN, I.I.BONDAR	152
Doubly-charged ions formation during multiphoton ionisation of Ba atoms	
V.M.FEYER, T.YU.POPIK, O.B.SHPENIK, YU.V.POPIK, M.M.ERDEVY	156
Peculiarities of slow electron scattering by Si-p (100) surface	

A.I.GOMONAI, O.I.KUDELICH, A.N.NEMETH Three-photon spectroscopy of neutral samarium	162
A.N.GOMONAI, A.I.IMRE, V.S.VUKSTICH, YU.I.HUTYCH Excitation of laser transitions from the $4d^9 5s^2 \ ^2D_{5/2,3/2}$ - levels of Cd^+ ion in electron-ion collisions	165
V.M.SIMULIK, I.YU.KRIVSKY Further development of the classical electrodynamical model of atom	169
M.I.HAYSAK, M.M.DOVHANICH, V.V.ONYSKO Hyperspherical approach in few-body systems	173
M.V.KURIK, L.T.SIKSAI, O.YU.BANDURIN Studies of the bile crystallization structure for patients with liver pathologies	178
I.I.BONDAR, V.V.SURAN, M.I.DUDICH Nonresonant mixing of metastable levels of Ba atoms by laser radiation	183
M.M.GUIVAN, A.N.MALININ, L.L.SHIMON Population density of $B^2 \ \Sigma_{1/2}^+$ - state of mercury monobromide and monochloride in excimer radiation sources	187
