

CONTENTS

A novel approach to weak signal processing Oleksandr S. Makarenko, Oleksiy V. Melnichuk	5
Increase of informative capacity of ultra wide band impulse signals Sergii G. Bunin	10
Optimal control of telecommunication aeroplatfrom in the area of emergency Oleksandr I. Lysenko, Stanislav V. Valuiskyi, Pavel I. Kirchu, Anton V. Romaniuk	14
Analysis of corrective properties of ultra-long LDPC codes Leonid O. Uryvskiy, Serhii O. Osypchuk	21
Multilevel intellectual approach to HTTP-requests legitimacy validation Volodymyr M. Kononenko, Serhii O. Kravchuk, Yurii V. Ivlev, Liubov A. Kononenko	27
Service model of the voice traffic in multiprotocol label switching networks Volodymyr B. Mankovskiy, Oleksandr I. Romanov	33
Resonators of mechanically tunable waveguide filters for tropospheric communication Petro Ya. Stepanenko	39
«Quadrupole» mode dr filter for c-band applications Tetiana V. Pidgurska, Olexander O. Trubin, Borys M. Shelkovnikov	51
Ontology for the knowledge portal on radio engineering and telecommunication history Pavel P. Yermolov	58
