The first "Visnyk of the Lviv University. Series Geography" was released 50 years ago. The current issue is number forty, and this makes it a double anniversary of our series. The "Visnyk" witnessed the development of the faculty and the departments. Therefore, in this anniversary edition, the separate papers inform about the development of scientific studies at the faculty and its eight departments. The results of researches of soil science, biogeography, geomorphology, paleogeography, physical geography, landscape science, economic and social geography, tourism geography, geo- and socioecology have been published.

References are cited at the end of the papers.

Professor **S. Poznyak** – Editor-in-Chief,
Professor **V. Bilanyuk** – Assistant Editor,
Professor **A. Bogucki** – Managing Editor.
