Becoming of spirituality of modern youth is in the conditions of informative society

Becoming of spirituality of modern youth is investigated, that conditioned by the necessities of theoretical value and practice, first of all, by the necessity of successful socialization of young people, that will assist to development of the moral feelings, spiritual increase and conscious estimation of situation that is folded in the conditions of globalization and transformation of informative society. The conclusion is done, that there are factors at individual and social level, that positively influence on realization of informative activity of a man and resist to curvature of information.

Such factors are social control and orientation of personality. A result of choice between alternatives is based on possibilities of the general spiritually field of young man and society. The prospects of further scientific researchers are: analysis of search of ways in relation to a rightness and expediency of freedom of modern young man on the plans of own existence.

Keywords: *spirituality, young people, globalization, contemporaneity, information, technological progress.*
